

Executive for Inspection and Security

16 July 1948

Assistant Director for Operations

Security reports on FBIB Cairo employees

1. Attached hereto is correspondence dated 22 June 1948, subject "Possible Security Cases," received 12 July 1948 from Chief of FBIS Mediterranean Bureau.

2. It is understood that information contained in this correspondence was furnished [redacted] of I & S by the Chief of FBIS Mediterranean Bureau during [redacted] recent visit of inspection.

3. Immediate dismissal of the six employees named in paragraph 7 of [redacted] letter would result in the elimination of the Rumanian Section and the reduction of the Greek Section from six to four monitors. Present coverage by BBC of both Greece and Rumania is considered inadequate. The Chief of the Reference Section, who doubles as emergency Serbo-Croat monitor, and the last remaining competent cruising monitor are also among the six individuals in question.

4. It is estimated six months will be required to recruit and train adequate replacements in these positions.

5. Your guidance in this matter is requested.

GEORGE G. CAREY
